

ATMA RAM SANATAN DHARMA COLLEGE (UNIVERSITY OF DELHI)

Skill Development and Entrepreneurship Cell

The Skill Development and Entrepreneurship Cell of Atma Ram Sanatan Dharma College had a productive and impactful academic year in 2025–26, successfully organizing a diverse range of events focused on entrepreneurship, skill development, financial awareness, and industry exposure.

The year commenced with E-Cell Orientation 2025, which introduced students to the Cell's vision and activities while also featuring an insightful legal awareness session on taxation, compliance, and sustainable business practices. To strengthen practical entrepreneurial skills among members, the Cell organized The Founder's Toolkit, a three-day workshop covering AI tools, venture finance, pitch deck creation, and public speaking.

A major highlight of the year was Venture Vault 2.0, a two-day intra-college entrepreneurship event that combined expert speaker sessions, mentorship for student startup teams, and a final pitch competition. E-Magine'25 further enriched the entrepreneurial ecosystem through an expert session on personal branding and an inter-college market simulation competition that tested strategic and business decision-making skills.

To promote continuous learning, The Case Circuit was introduced as a weekly case-study series for E-Cell members, helping them develop analytical thinking, business acumen, and problem-solving abilities across multiple domains. The Financial Literacy Workshop also played a key role in equipping students with essential financial knowledge, including mutual funds, SIPs, taxation, investment avenues, and cyber safety.

The year concluded with the successful organization of E-Summit'26, the Cell's flagship annual event. Spread over two days, the summit featured sessions on AI-driven entrepreneurship, business evolution, and organisational frameworks, alongside engaging simulation competitions. Overall, the Cell effectively created opportunities for students to learn, innovate, and gain practical exposure, making the year highly enriching and impactful.
