A webinar to celebrate World Ozone Day was organized on September 16, 2020. Ms. Shikha Bhasin, Program Lead for the Council for Environment, Energy, and Water, was invited to deliver a lecture on Global Ozone Day. She familiarized the participants with the importance of the ozone layer, the causes of ozone depletion, and what measures are being taken worldwide to save this lifeguard of the earth. She talked about the Vienna Convention, the Montreal Protocol, and also the Kigali Amendment and India's role in it. Like in the Montreal Protocol, targets in the Kigali Agreement have been staggered for high- and low-income countries. Countries like the US must meet this target by 2036, while India has until 2047 and China until 2045. India was one of the last major countries to officially ratify the amendment.
