

National Green Corps:

National Green Corps is a program of Ministry of Environment and Forests Govt. Of India. It aims to provide knowledge to students about environmental issues through setting up of Eco Clubs. The members of these Eco Clubs constitute the National Green Corps. Resource agencies have been assigned for each state and Union territory which help in facilitating this scheme and providing resource material to the Eco Clubs. This programme started in the year 2001 and today has more than one lakh educational institutions which mainly aim to have students as corps for conservation of environment and various natural resources for sustainable development. This is the largest such programme in the world which targets mainly school children who are the future of the nation to understand the importance of environmental protection. These NGC through Eco Clubs promote environment discipline and responsibility through their institutions. The motto of NGC is ' Where there is green, there is prosperity'.
