

JavaScript(JS)

Dear students, in our regular classes we had discussed some of the topics given below. As classes could not happen for sometime. Please go through all the references provided here along with the exercises in each topic.

- **Why to learn JavaScript? What are applications of JS? Different frameworks of JS?** [click here](#) [click here](#)
- **Where to write JS Code?** [click here](#)
- **Various Ways of outputting in JS** [click here](#)
- **What is a JS statement?** [click here](#)
- **An Overview of JS syntax** [click here](#)
- **How to write comments in JS** [click here](#)
