The five-day flagship event, Ennovate'22 was concluded with a Case Study Competition- WAGER OF COGNITION held on 31st January 2022.

The event constituted of two rounds. In the first round, all the participants were given a case study problem and were required to devise a creative solution within 3 days (27th -29th January). 7 teams qualified for the second round where they had to present their case to our esteemed panel of judges. All the teams had a unique take on the problem, they did extensive ideation and came up with innovative marketing solutions. The contestants also included social and environment-friendly aspects to their presentation displaying their zeal for social entrepreneurship. The intellectual question and answer session between the participants and judges was insightful. At the cessation of the event, judges shared brief words of wisdom and expert insights on solving a case study.

Overall, the event turned out to be an enlightening experience; as it polished the problem-solving skills of not only the participants but also the ones who conducted the event and the rational inputs from our judges on the social issues were thought-provoking.
