

Event Report

Name of Program: Visit to NDTV India Studio

Date of the Program: 1 Nov 2018

No. of Participants: 10

Organized by: Skill Development and Entrepreneurship Cell, ARSD College

Collaborating Agency: NDTV India

The students of E-cell got a chance to visit the studio of NDTV India where they participated in a live panel discussion on the topic of Cracker Ban and Pollution Issue.

A firecracker is usually used to produce disturbing noise and visual effects in celebrations contributing to significant air pollution and it also causes human body disorders.

Discussion focused on whether firecrackers should be banned permanently in the whole world as they degrade the atmosphere and also cause health hazards. Further it was put forth that they should be banned for our own safety as they create dangerous conditions when not correctly used. The discussion inculcated a sense of saving the environment. Each and every student participated in the discussion.
