Finance is one of the key ingredients for successful start-ups. Many entrepreneurs, however, lack knowledge of finance. Finance for a start-up is like blood for a human body. Entrepreneurship Cell conducted a session to teach basic financial knowledge needed in starting and operating start-ups to entrepreneurs or would-be entrepreneurs who did not major in finance. It will help all the budding entrepreneurs to get insight about various aspects of entrepreneurship like- funding, equity, dilution, revenue models, pricing models etc. Students were encouraged to practice simple financial planning of a start-up. This session also covered the concept company valuation as well as how start-ups get funding.
